

## NEWS RELEASE

### Leading Investment Firm Awards Networking Contract to FibreSpan

FibreSpan, the premier provider of private dark fibre networks, has signed a contract with a leading futures and hedge fund management firm to provide a dark fibre LAN extension linking two sites in the West End of London.

Through the agreement, FibreSpan's dark fibre will be used to deliver high speed network services for the customer's distributed real-time business applications. The solution fits perfectly with FibreSpan's core competencies and further compliments its growing corporate and financial services portfolio.

"This was the ideal solution for this customer, and is equally competitive and effective for any company operating from multiple locations," comments Robert Bicket, Chief Executive of FibreSpan. "In particular we are doing more business with the financial services industry, where our high speed networks are enabling firms to execute financial transactions with the minimum of latency".

FibreSpan's dark fibre solution is an ideal solution for banks, investment firms and trading firms where high-performance, resilience and control is absolutely critical. It provides dedicated point-to-point connectivity and a fixed price unlimited bandwidth model – a future proof solution fit for a rapidly changing environment.

## **About FibreSpan** - [fibrespan.co.uk](http://fibrespan.co.uk)

FibreSpan is a fibre solutions company with a national telecommunications licence. It designs, installs, operates and leases private dark fibre circuits, working in partnership with health and education, local authorities and other multi-site organisations. Established in 2001, it is an independent UK national statutory utility, licensed by the DTI and regulated by Ofcom.

It is FibreSpan's goal to make fibre optic connectivity a viable solution for organisations throughout the UK. In order to achieve this, the company has invested in developing patent-pending microduct technology that is swiftly changing the face of fibre optic deployment – allowing access to bespoke dark fibre connectivity at an affordable and competitive rate.

FibreSpan offer an end-to-end service that includes consultation, network planning, rapid deployment and comprehensive support. Its dark fibre networks offer unlimited bandwidth at a fixed cost for the term of the contract - a genuinely future proof solution. This puts FibreSpan in a unique position to enable clients to have complete control of future bandwidth demand.
