

## NEWS RELEASE

May 2009

### **FibreSpan adds additional connectivity to Melbourne's Data Centres**

FibreSpan has provided additional network connectivity between Melbourne Network's new Turing House Data Centre, the TeleCity Williams Science Park and existing facilities at Reynolds House in Manchester. This project follows on from FibreSpan's previous contract to provide dark fibre Data Centre connectivity.

Melbourne Networks is one of Manchester's leading providers of hosting services, serving local, national and international clients.

### **About FibreSpan**

breSpan is a network carrier specialising in dark fibre and ultra-high bandwidth services.

Established in 2001, FibreSpan designs, installs, operates and leases private dark fibre circuits, working with public sector, corporate and financial services organisations throughout the UK.

FibreSpan builds high bandwidth low latency private fibre networks that put you in control, providing flexibility in managing IT across multiple sites or offices.

FibreSpan offers an end-to-end service that includes consultation, network planning, rapid deployment and comprehensive support. Its bespoke fibre networks offer scalable bandwidth at a fixed cost for the term of the contract – a genuinely future-proof solution.

FibreSpan is an ISO 9001 accredited national telecommunications company (with code powers) licensed by the DTI and regulated by Ofcom.
