

## NEWS RELEASE

June 2009

### **FibreSpan wins third LINK Interchange Network contract**

VocaLink, the specialist provider of LINK ATM solutions and transaction services to banks, their corporate customers and Government departments, has appointed FibreSpan to install an additional resilient dark fibre network. The company was selected to continue its existing partnership delivering dark fibre for high speed data services across multiple locations.

This third contract is testament to the success of FibreSpan's previous network installations in terms of performance and reliability.

End

### **About FibreSpan**

FibreSpan is a network carrier specialising in dark fibre and ultra-high bandwidth services.

Established in 2001, FibreSpan designs, installs, operates and leases private dark fibre circuits, working with public sector, corporate and financial services organisations throughout the UK.

FibreSpan builds high bandwidth low latency private fibre networks that put you in control, providing flexibility in managing IT across multiple sites or offices.

FibreSpan offers an end-to-end service that includes consultation, network planning, rapid deployment and comprehensive support. Its bespoke fibre

networks offer scalable bandwidth at a fixed cost for the term of the contract – a genuinely future-proof solution.

FibreSpan is an ISO 9001 accredited national telecommunications company (with code powers) licensed by the DTI and regulated by Ofcom.
