FibreSpan: Bringing schools together

Using dark fibre connectivity, FibreSpan has successfully connected four educational sites on behalf of the West Grantham Federation including St Hugh's Secondary School, Spitalgate Primary School, the Earl of Dysart Primary School and a local sports centre.

FibreSpan's dark fibre network allows the facilities to enjoy high bandwidth functionality at all sites across a single virtual network, as opposed to each location having to procure and manage its own broadband supply at a higher cost. Additionally, the locations' IT function now has easy control and single-site visibility of all systems and applications enabling greater operational efficiency.

About FibreSpan

FibreSpan is a network carrier specialising in dark fibre and ultra-high bandwidth services.

Established in 2001, FibreSpan designs, installs, operates and leases private dark fibre circuits, working with public sector, corporate and financial services organisations throughout the UK.

FibreSpan builds high bandwidth low latency private fibre networks that put you in control, providing flexibility in managing IT across multiple sites or offices.

FibreSpan offers an end-to-end service that includes consultation, network planning, rapid deployment and comprehensive support. Its bespoke fibre networks offer scalable bandwidth at a fixed cost for the term of the contract – a genuinely future-proof solution.

FibreSpan is an ISO 9001 accredited national telecommunications company (with code powers) licensed by the DTI and regulated by Ofcom.
